About

Acor participates in around 25 industry trade shows, symposiums, and educational seminars each year. As a sponsor and exhibitor we enjoy meeting our customers face-to-face and sharing good food and drink after a long day in the exhibit hall. With so many events being cancelled or postponed this year, we thought it would be fun to offer a place where you can do all the things you'd do at an industry event. This page will only be available while shows and in-person CEU opportunities are not being scheduled and will come down once things get back to normal. For now, please let us know if you have any questions or suggestions. Most of all, enjoy!

A Message From Acor

Coronavirus/COVID-19 Necessary Steps

A Message For Our Partners and Customers

At Acor, we are taking steps to protect our employees, their families, and our partners as we continue to provide the industry with our goods and services. We are continually following the most current CDC and Ohio Department of Health guidelines and keeping our people well informed.

The governor of Ohio has issued a "stay at home" order that will go into effect at midnight, tonight. However, Acor is deemed an essential business vital to the supply chain and as such will remain fully operational and open for business. We have implemented a work schedule which will allow us to operate at or near full capacity while requiring fewer workers to physically occupy their workstations. In this way the health and safety of our team members can remain our highest priority while continuing to service our valued customers and partners.

We expect that all products will remain available and at this time don't anticipate any delays in shipments. Watch for updates as the days progress. As always, if you have any questions please don't hesitate to reach out to your normal point of contact within our company or to me directly. Thank you.

Stay safe and healthy,

Brian Dunphy
Marketing & Communications Coordinator
Acor Orthopaedic, Inc.
